

Jury Instruction No. \_\_\_\_\_

An expert witness is permitted to state an opinion based upon a question which, for the purposes of trial, assumes as true certain facts which may or may not be true.

It will be for you in your deliberations, however, to determine from all of the evidence whether or not the facts assumed have been proved to be true.

The rules of evidence provide that if scientific, technical, or other specialized knowledge might assist you in understanding the evidence or in determining a fact in issue, a witness qualified as an expert by knowledge, skill, experience, training, or education, may testify and state an expert opinion concerning such matters.

You should consider each expert opinion received in evidence in this case and give it such weight as you may think it deserves. If you should decide that the opinion of an expert witness is not based upon sufficient education and experience, or if you should conclude that the reasons given in support of the opinion are not sound, or that the opinion is outweighed by other evidence, then you may disregard the opinion entirely.
