C.1 BACKGROUND

The United States District Court for the District of New Mexico requires a contractor to provide hardware and software components to integrate into our virtualization infrastructure at the Pete V. Dominici Courthouse, 333 Lomas Blvd. NW, Albuquerque, NM 87102.

The Contractor shall ensure that only the equipment and software required to satisfy the whole requirement is included and that all software and equipment are compatible with existing hardware/software with which it will interface. The Government will evaluate and approve or disapprove all equipment and/or software.

C.2 GENERAL REQUIREMENTS/EQUIPMENT REQUIREMENTS

The contractor shall provide hardware and software compatible with existing virtual infrastructure. Currently the Court's infrastructure is Nutanix based hardware and KVM based software. We are requiring a contractor to provide 2 Nutanix NX-3160-G6 Nodes or EQUAL. Each node must be configured with two (2) Intel 12-Core Silver 4116 Xeon Processors or EQUAL, sixteen (16) modules of 32GB DDR4 RAM for a total of 512GB DDR4 RAM, six (6) 1.92 TB 2.5" SSD Disks, one (1) 10GbE Dual SFP+ Network adapter and two 3 meter SFP+ 10GbE Copper cables. The quality of the products must be new, not refurbished and 100% free of defects.

Each node must include a Pro Entitlement License and one (1) year of Gold system support. Strong consideration would be applied to three (3) years of Gold system support should it yield a cost savings of at least 5% in comparison to a year-by-year purchase. Support should be provided telephonically and online with attention to High Priority calls being addressed within an hour of the call and corrected 100% of the time; Medium Priority calls being addressed within the same day (within 6 hours) of the call and corrected 100% of the time; Low Priority calls being addressed within 48 hours of the call and corrected 100% of the time.

The contractor shall provide information on their extended warranty and/or follow up maintenance programs. The courthouse Information Services Department will be installing the hardware/software once products are received. After installation, and hardware/software is operational, acceptance will be determined by performance and compatibility with the existing infrastructure. Payment will be made after acceptance is determined and within 10 days after receipt of invoice.

C.3 MAINTENANCE AND REPAIR SERVICE

Commercial Extended Warranty/Service Plans. In accordance with Provisions 2-15, Warranty Information, incorporated by reference into Section L.4 of this Solicitation, the contractor shall provide information on available commercial extended warranties and/or follow-on maintenance programs available as an option to the judiciary. Provision 3-5 Taxpayer Identification and Offeror Information APR 2011

(a) Definition.

"Taxpayer Identification (TIN)," as used in this provision, means the number required by the Internal Revenue Service (IRS) to be used by the offeror in reporting income tax and other returns. The TIN may be either a social security number or an employer identification number.

(b) All offerors shall submit the information required in paragraphs (d) and (e) of this provision to comply with debt collection requirements of 31 U.S.C. §§ 7701(c) and 3325(d), reporting requirements of 26 U.S.C. §§ 6041, 6041A, and implementing regulations issued by the IRS. If the resulting contract is subject to the payment reporting requirements, the failure or refusal by the offeror to furnish the information may result in a 31 percent reduction of payments otherwise due under the contract.

(c) The TIN may be used by the government to collect and report on any delinquent amounts arising out of the offeror's relationship with the government (31 U.S.C. § 7701(c)(3)). If the resulting contract is subject to payment recording requirements, the TIN provided hereunder may be matched with IRS records to verify the accuracy of the offeror's TIN.

(d) Taxpayer Identification Number (TIN): _____

TIN has been applied for: _____

TIN is not required, because:

- Offeror is a nonresident alien, foreign corporation or foreign partnership that does not have income effectively connected with the conduct of a trade or business in the United States and does not have an office or place of business or a fiscal paying agent in the United States;

Provision 3-20 Certification Regarding Debarment, Suspension, Proposed Debarment, and Other Responsibility Matters (APR 2011)

- (a) (1) The offeror certifies, to the best of its knowledge and belief, that:
- (i) the offeror and/or any of its principals:
 - (A) are___ / are not___ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any federal agency;
 - (B) have___ / have not___ within the three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) contract or subcontract; violation of federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating federal criminal tax laws, or receiving stolen property;
 - (C) are___ / are not___ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision;

- (D) have___ / have not___ within a three-year period preceding this offer, been notified of any delinquent federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.
- (1) Federal taxes are considered delinquent if both of the following criteria apply:
- (i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.
 - (ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.
- (2) Examples.
- (i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
 - (ii) The IRS has filed a notice of federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
 - (iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.
 - (iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. § 362 (the Bankruptcy Code).
- (ii) The offeror has___/ has not___, within a three-year period preceding this offer, had one or more contracts terminated for default by any federal agency.
- (2) "Principal," for the purposes of this certification, means an officer; director; owner; partner or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division, or business segment, and similar positions).

This certification concerns a matter within the jurisdiction of an agency of the United States and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under 18 U.S.C. § 1001.

- (b) The offeror shall provide immediate written notice to the contracting officer if, at any time prior to contract award, the offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- (c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the offeror's responsibility. Failure of the offeror to furnish a certification or provide such additional information as requested by the contracting officer may render the offeror nonresponsible.
- (d) Nothing contained in the foregoing will be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- (e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the offeror knowingly rendered an erroneous certification, in addition to other remedies available to the judiciary, the contracting officer may terminate the contract resulting from this solicitation for default.

(END)

3-30 Certification of Independent Price Determination (JAN 2003)

- (a) The offeror certifies that:
 - (1) The prices in this offer have been arrived at independently, without, for the purpose of restricting competition, any consultation, communication, or agreement, with any other offeror or with any competitor relating to:
 - (A) those prices;
 - (B) the intention to submit an offer; or
 - (C) the methods or factors used to calculate the prices offered.
 - (2) The prices in this offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or contract award unless otherwise required by law; and
 - (3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.
- (b) Each signature on the offer is considered to be a certification by the signatory that the signatory –
 - (1) is the person in the offeror's organization responsible for determining the prices in this offer, and that the signatory has not participated, and will not participate, in any action contrary to paragraphs (a)(1) through (a)(3) of this provision;
 - (2) or
 - (i) has been authorized, in writing, to act as agent for the following principals in certifying that those principals have not participated, and will not participate, in any action contrary to paragraphs (a)(1) through (a)(3) of this provision
_____ (insert full name of person(s) in the offeror's organization responsible for determining the prices in this offer, and the title of his or her position in the offeror's organization);

- (ii) as an authorized agent, does certify that the principals named in subdivision (b)(2)(i) of this provision; have not participated, and will not participate, in any action contrary to paragraphs (a)(1) through (a)(3) of this provision; and
 - (iii) as an agent, has not personally participated, and will not participate, in any action contrary to paragraphs (a)(1) through (a)(3) of this provision.
- (c) If the offeror deletes or modifies paragraph (a)(2) of this provision, the offeror shall furnish with its offer a signed statement setting forth in detail the circumstances of the disclosure.

Section M – Evaluation Factors for Award

M.1 BASIS FOR AWARD

The Lowest Price Technically Acceptable (LPTA) source selection process, conducted in accordance with Section 330 of Volume 14 of the *Guide to Judiciary Policy (Guide)*, will be used as the basis for selecting a proposal for award. The *Guide* is available at <http://www.uscourts.gov/procurement.aspx>. Award will be made to the responsible offeror whose proposal is determined to conform to all required terms and conditions of this solicitation, include all required representations and certifications, meet all requirements set forth in this solicitation and provide the lowest evaluated price while meeting or exceeding acceptability standards, based on the results of the evaluation described below. Any finding of Deficiency, defined as an aspect of a proposal that fails to meet a minimum requirement, will cause an offer to be rated "Technically Unacceptable" and will therefore eliminate that offer from consideration for award.

M.2 EVALUATION APPROACH

The judiciary shall use the following approach to evaluate proposals received:

Section 1 – Price Proposal and Solicitation Documentation

(a) *Price Reasonableness.*

The existence of price competition is expected to support a determination of price reasonableness. Price analysis techniques may be used to further validate price reasonableness. If adequate price competition is not obtained or if price reasonableness cannot be determined using price analysis of information in the proposals, the judiciary may request additional pricing information in order to determine that pricing is reasonable.

(b) *Total Evaluated Price.*

A total evaluated price will be determined for each offer by adding the total price for the basic requirement.

(c) *Unbalanced Pricing.*

Any offer that is materially unbalanced as to prices for basic and option quantities may be rejected. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is determined by the judiciary to be significantly overstated or understated.

Section 2 – Technical Acceptability

The judiciary will evaluate the technical proposal as acceptable or unacceptable, based on the following criteria. Being rated "Unacceptable" under either of the two evaluation criteria will render a proposal Technically Unacceptable and therefore not eligible for award.

(a) *Compliance of Equipment/Services with Solicitation Requirements.*

Proposals will be evaluated to determine whether or not the equipment and services proposed meet the minimum requirements of the solicitation. Proposals that meet the

minimum requirements will be rated "Acceptable" and those that do not will be rated "Unacceptable" under this evaluation criterion.

(b) Past Performance.

The judiciary will evaluate the offeror’s record (as described in L1 Sec. 2a of this solicitation) of recent, relevant past performance to ascertain whether the offeror's history of past performance demonstrates an acceptable level of quality or not. Quality assessments will include review of customer satisfaction with respect to compliance of services/products to contract requirements, effectiveness of project management, timeliness of performance, commitment to customer satisfaction and business-like conduct, and other comments made by relevant points of contact. Offeror's demonstrating an acceptable quality of past performance will be rated "Acceptable" and those that do not will be rated "Unacceptable" under this evaluation criterion.

M.3 INFORMATION TO BE USED IN MAKING AWARD DECISION

The judiciary will make an award decision based on information in the submitted proposals and upon recent, relevant past performance information. The judiciary will make a best effort to gather information about the quality of the offeror's past performance under each past performance contract referenced in the offeror's proposal. In addition to gathering information from sources identified by the offeror in its proposal, the judiciary may use data obtained from other sources, including data in government files or data obtained through interviews with personnel familiar with the offeror and its/their performance under recent, relevant Federal, State or Local government or commercial contracts in order to assess the quality of the offeror's past performance.

M.4 AWARD ON INITIAL PROPOSALS/DISCUSSIONS

As stated in judiciary provision 3-100, Instruction to Offerors, the judiciary intends to evaluate offers and award a contract without discussions with offerors. However, the judiciary reserves the right to conduct discussions if the contracting officer later determines them to be necessary.

A technical evaluation shall be conducted on all proposals, after which the contracting officer shall decide whether to make award on initial proposals, make no award, or hold discussions. If the contracting officer decides to hold discussions, the contracting officer shall determine a competitive range and conduct fair and equal discussions with each offeror in the competitive range. After completion of discussions, offerors shall be permitted to provide revised, final proposals by a common cut-off date.
